Help us raise \$125,000.00 to save the life of a wonderful woman named Alice Surrency. She is the mother of 1 son and the only surviving member of her birth family. She served our country in the US Air Force from 1975 to 1980 and now continues to serve as safety inspector with the FAA. Having already beaten breast cancer in 2000, she is now battling a rare form of cancer called Merkel. It is our pleasure to now serve her. Your donation will help her get to Israel and pay for treatment with a new experimental vaccine developed in Israel, which is not yet available in the U.S and not covered by her insurance. The vaccines have been astonishingly successful (over 80%) with otherwise hopeless cases. Help us make medical history and advancements for a cure for all cancer diagnosis.

For more info on Alice you can read the May/June 2011 Issue of Aviation For Women online. For more info on the cancer vaccine visit
